WILL DIG FOR GOLD.

E. E. Rouse and Dr. Freemyer Will
Dig Beneath the Waves of
the St. Joseph River.

WILL EXPLORE AN ISLAND.

They Will Leave Tomorrow With a
Kit of Miners' Tools and
Lots of Faith.

Nine miles up the St. Joseph river there is an island which has held its secret well away from all adventurers. It is full of electricity or magnetism and they who would till its soil or dig beneath its surface have been mysteriously and effectually scared away. The spade is stuck into the earth but the man who holds it feels an electric shock and his hands refuse to hold the handle. He experiences the same sensation as the man who grasps a live electric wire.

In connection with the many legends connected with this island there is an Indian tradition that in the early days the pirates who then operated on the lakes hid their treasure of Spanish coin in the earth of this island. According to the Indian belief fabulous riches are buried in the electricity protected islands.

Tomorrow morning E. E. Rouse and Dr. Freemyer will start out on one of the river boats and stop at the island. They will go with spades and picks and with rubber gloves to protect their bodies from the fierce currents of electricity with which the ground is charged.

These gentlemen will sink shafts and explore the island and expect to be gone about two days.

YESTERDAY'S EXCURSIONS.

Eight Hundred People Went to
Michigan City.

Eight-hundred persons boarded the steamer City of Louisville for Michigan City yesterday morning and enjoyed a delightful excursion given by Frazell's military band. The boat carried three bands, Frazell's and the Stevensville and Baroda organizations. The excursionists were given four hours in Michigan City which were spent in an inspection of the state prison and in the parks. Some of the excursionists were sadly drenched by a rain storm that came up just as the boat left the dock on its return trip. The band cleared \$50 out of the excursion.

The steamer City of Milwaukee carried upwards of 1,000 passengers on her trip from Chicago yesterday afternoon.

At least 2,000 strangers from Indiana spent Sunday in the twin cities. An excursion train of six coaches from Milford and Warsaw came in early in the morning accompanied by the Milford band. This was followed by the first section of the Anderson excursion consisting of eight coaches, the train coming here about 12 o'clock and about a half hour later the second section of the Anderson excursion of seven coaches came in. The last train had considerable difficulty in reaching here on account of trouble with the engine.

J. O. Walsh, excursion agent of the Vandalia and Graham & Morton company, brought in an excursion from South Bend Saturday night. The crowd was transferred from the train to the steamer City of Chicago and went to Chicago. There were eight well filled coaches.

HAPPY MEETING.

Was Held by the Y. M. C. A. Yesterday.

Dr. F. A. Votey conducted a very interesting and profitable men's meeting at the Young Men's Christian association rooms yesterday afternoon at 3 p. m.

Various phases of Y. M. C. A. work were discussed by the following persons, Dr. Votey in a very pleasing talk told of the influences that led him into the active work in Worcester, Mass., while a medical student there; also of his subsequent connection with the Central association in New York city.

Rev. Simons spoke of the railroad department of the work. He impressed the fact that a great work has been and is being done among the railroad men. As a result of the good work done by the association among the employed men the railroad companies had erected buildings well equipped and given to the Y. M. C. A.

Charles Tompkins spoke of the college work. The future leadership depends upon our college men of today. The Young Men's Christian association is an important factor in moulding that leadership.

The principle address was given by Charles Scott of Lowell, Mass. He spoke of the work in the east, having been closely connected with the work of the Lowell association as financial secretary. Some practical plans for raising finances were brought forth during his address.

Good music was a prominent feature of the hour's meeting.

All men are cordially invited to attend the meeting next Sunday at 3 p. m.

THE WEATHER.

Showers this afternoon and tonight. Cooler tonight. Rain in eastern Michigan tomorrow.

WAS HERE SUNDAY.

Vice President Deam Keeps Out of the Law's Clutches.

Vice President Deam of the Benton Harbor Electric road spent Sunday in this city. He came in after Saturday was done and got away before Monday began. Consequently the order of Judge Coolidge to open forthwith the safe of the company could not be served upon him.

It is whispered about the offices of the company that Deam's aversion to opening the safe may be accounted for in that some of the contents of the safe may have mysteriously disappeared about the time the combination was changed.

THE CAR FERRY LINE

It Will Begin Operation Tomorrow
Morning According to
Present Plans.

BIG FERRY TO ARRIVE TODAY

Twenty-one Cars Waiting to be
Loaded for the First Trip
Across the Lake.

The Big Four railway car ferry line from this city to Manitowoc will begin operation tomorrow according to the present plans of the Big Four.

One of the big ferries is expected in port this afternoon and the company has 21 car loads of freight ready for transfer by ferry. The ferry will be loaded tomorrow morning and will leave immediately across the lake.

THE OTHER SIDE.

What John Buckman Has to Say
Concerning His Son-in-law.

Mr. John Buckman, father-in-law of Jake Hushaw, who was Friday placed under bonds to keep the peace, insists that he nor his family have made any attempt to estrange Hushaw and his wife. Mr. Buckman denies the existence of any conspiracy on his part or on the part of any member of his family to annoy and burden the life of his daughter because she is disposed to continue to live with Hushaw. He says he has treated Hushaw and his wife with the consideration due from a dutiful parent and that the claim by Hushaw that he was the victim of unkind and cruel treatment is false.

"I have never lost an opportunity to help Hushaw and since he became my son-in-law I have given him several hundred dollars, donated his house rent and encouraged him in every possible way," said Mr. Buckman to THE NEWS this morning. "The trouble started three years ago when I leased my farm to Delmer Laplant. Hushaw was angered over the transaction and shortly after left home and was absent nearly six months during which time I supported his wife and children. One of his babies died during his absence and I stood all the burial expenses. We have helped his wife a great deal, and our attitude has never been intended to cause her misery. We have always been solicitous for her welfare."

Mr. Buckman has been a resident of this county for 40 years and during that time he has never before been connected with any lawsuit. He is a member of the United Brethren church and one of the accusations he makes against Hushaw is that he will not permit his wife to attend church.

ABOUT THE COUNTY.

Sodus.

SODUS, July 26—Robert M. Hogue, returned home from St. Paul Friday evening with Uncle Peter Sharrai who was taken ill while on his way home from the far northwest. Mr. Hogue went in answer to a telegram from the postal authorities of St. Paul.

Mrs. J. S. McKinsey had quite a serious runaway a few days ago. While driving home from Pipestone her horse became frightened, throwing her out and breaking a thumb and finger.

There will be an ice cream social at the McGowen & Shell hall on Friday evening, July 30, given under the auspices of the Epworth league of the M. E. church. Come everybody and enjoy the delicious ice cream and cake and have a pleasant and social time with the young people.

A little son of C. E. King fell down a bank Thursday and broke his left leg in the hip. Dr. McCartney was called and reduced the fracture.

ALASKA GOLD CRAZE.

No Abatement of the New Contagion Yet Felt Among the Enthusiasts of this City.

MANY WANT TO DIG FOR GOLD.

A Nephew of A. A. Johnson Left for the Promised Land Saturday Night.

A. A. Johnson, of this city, spent Sunday in Chicago purchasing a complete outfit for an expedition to the Alaskan gold fields. The outfit will not be used by Mr. Johnson but by Omer Maris, his nephew, who is connected with the Chicago Record.

Mr. Maris has been to Alaska before and from Juneau he will make the trip overland by the use of dogs and a canvas boat twelve feet long which will carry him through the rapids the tourist is compelled to shoot. He bought his boat in Chicago, and among the articles of equipment were rubber boots and canvas wading boots. The newspaper man also bought seven solid silver watches and several solid silver rings. He explained to Mr. Johnson that he would trade these articles to the Indians for being packed across the dangerous passes. Mr. Johnson asked him why he bought solid silver cases as the Indians couldn't tell a washed case from the genuine and the answer was that perhaps he would like to trade with the same Indians at some other time. The Alaskan Indians will pay more for a silver watch than they would for one made of gold.

Mr. Maris has been all over Alaska and the stories of privations and hardships he thinks are overdrawn. He was in Alaska over a year and gained fifteen pounds in weight and was never better in health in all his life.

At Dyea, the last village reached in Alaska before entering the mountains, the traveler will buy his supply of furs and food. As a sample of the prices he says, that on his last visit bacon could be bought at Dyea for 84 cents a pound.

Experienced travelers look upon the gloomy predictions of starvation in Alaska this winter with much suspicion. The steamboat fare from Seattle to Juneau is \$15 and boats can make the trip in a few hours. All the food necessary to feed half a million people can be rushed into Alaska this fall and the 600 miles between Juneau and Dawson City can be traversed by the natives and the food carried to the mining camps.

Former Postmaster Nichols, who was at Leadville in its best days has decided to go this fall and there are many others who are strongly talking Alaska. Mr. Nichols will keep his interest in the Hall & Nichols drug store during his absence and the fortune he finds will be brought to Benton Harbor.

BEALER LOCKED UP.

The Eloping New Buffalo Couple Have Some Trouble.

NEW BUFFALO, July 26.—Upon the arrival here Friday night of Mr. and Mrs. W. F. Bealer, the elopers, Bealer was placed under arrest by order of his wife's father, Dr. August Berkholtz, and imprisoned in the city jail.

His wife made a pitiful plea for forgiveness and succeeded in melting her father's heart, whereupon Bealer was released and a reconciliation which brought the young son-in-law face to face with his wife's angry father ensued. He was received with some show of dignity, but the coldness wore away and when Mr. and Mrs. Bealer, bade their parents goodbye late Friday evening and departed for Three Oaks, their future home, there was evidences of affection seen.

MOONLIGHT EXCURSION.

It Will Go Up the River Next Wednesday Night.

The Evening News Boys' band will give a moonlight excursion on the steamer Tourist next Wednesday evening. The boat will leave the dock in this city at 8 o'clock and will run up to the new railroad bridge. The fare for the round trip is 25 cents.

Prepare your lunch and go with the Woodman to Warsaw, Winona assembly and Eagle lake July 28. Tickets \$1.

THE COLOMA RACES.

A Paw Paw Horse Won in the Free For All.

On Saturday afternoon occurred the third matinee of Maple Point driving park, Coloma, under the auspices of Hobart G. Lyon. The weather was good and the attendance the largest it has yet been, nearly 600.

THE EVENING NEWS ran an excursion which was accompanied by the Newsboys' band and fairly well patronized by both St. Joseph and Benton Harbor people. The music furnished by the boys at the grounds was highly appreciated by those present.

The events on the card, although won in straight heats, were hotly contested.

In the free-for-all Miss Van Ness was the favorite, and Watervliet money was plentiful before the first heat was taken by Electric and it was apparent that Miss Van Ness had met her match in both Electric and Hart.

In the second heat Hart came under the wire second with one pneumatic tire dangling to the frame of the bicycle and in the third heat he was driven by Mr. Abbott to a road cart being so much handicapped thereby that he only got third place in the heat and race.

In the Gentlemen's Driving class Myrl, owned and driven by Vol Manley, of Hartford, won handily. Bull E. was put back to fifth place in the first heat for running but took second in the second and third heats and in the race.

The summary with winners of horses:

GORED BY A COW.

William Chadwick and Two Children the Victims

William Chadwick and two of his children came dangerously near being gored to death by an angry cow Friday. The tragedy occurred on Mr. Chadwick's farm two miles south of the city.

A neighbor's cow broke into Mr. Chadwick's corn-field and two of the Chadwick children were sent to drive the brute out.

The cow attacked them and had tossed one of them into the air when the father rushed to their relief. The ugly brute then rushed upon Mr. Chadwick, threw him to the ground and was attempting to fasten her horns in him when Mr. Chadwick's dog appeared. He grabbed the maddened brute by the ear and diverted her attention long enough to allow Mr. Chadwick and the children to escape.

Mr. Chadwick now asserts that he would not part with his dog for \$100 in Klondike gold.

Baptist Church Responds Liberally to Pastor's Solicitation.

The large congregation which was present at the Baptist church yesterday morning was treated to a surprise. After the introductory services, pastor Simons said that he had a good sermon ready for delivery, but that before he proceeded to give it he desired to ask for the trifling sum of \$600 to enable the church to begin a new year, October 1 without debt. Mr. John Higman jr., of the board of trustees, also made a short statement after which subscriptions were called for and the considerable sum of \$608.80 was soon raised and a special committee was appointed to canvas the membership not present for the purpose of raising the balance needed.

Churches as well as business concerns have felt the hard times severely, and the First Baptist church, which has been under heavier expense for the past four years than ever before is deserving of commendation for its financial exploit of yesterday.

DAINTY TWINS.

Two Young Maidens Inseparably Connected for Life.

It is more than probable that all the ladies and children visiting the Barnum & Bailey Greatest Show on Earth this year will fall desperately in love with the wonderful young lady twins, who are to be seen in the menagerie tent with the giant and the little man, the latter weighing less than seven pounds. The pretty twins are named Rodica and Doodica, and they remind one of humming birds, so vivacious and lively are their movements. The Liverpool, England, Courier, in mentioning them said, "they flitted to and fro, through the drawing room, flushing from one visitor to another, smiling and showing the whitest of teeth and the brightest of eyes—set like jewels in their olive faces. The costumes they wear add considerably to the brilliancy of their appearance. One dusky little beauty has a ring in her nose, in the approved East Indian fashion, and both wear ear-rings, armlets, wristlets, and anklets of silver, and jeweled neckbands. Their dresses attracted general attention and admiration. They wore little Turkish trousers of deep crimson satin, and blouses of heliotrope silk, trimmed with cascades of cream lace, and high boots of red morocco leather edged with grey fur. Their out-of-door coats were of blue plush, with deep colors of point lace." They dance, sing, play, and gambol just like other children, only, of course, doing so together, as they are attached to each other in the most wonderful manner, from the hips to the shoulders and cannot by any human means be separated without fatal results. Both are hungry at the same time and all functions are performed simultaneously so that they afford the most remarkably interesting, as well as wonderful, object of curiosity ever discovered. In the same tent with them are all the attractions of the big menageries, such as Johanna, the giantess gorilla, 24 elephants, 50 cages of wild beasts, the snake charmers, male and female magicians, jugglers, lightning calculator, fire kings, dancers, and players upon odd, curious, and quaint musical instruments. This forms a separate entertainment from, and takes place before, the regular circus performances in the rings, on the stages, on the race track, and in the aerial enclave, in all of which fully one hundred startling acts are given. All will be here on Saturday, August 7, with the Columbus pageant and great 40-horse team, free on the streets.

THE NEW TARIFF LAW.
 The Dingley tariff law, a protective measure higher in its rates than the old McKinley law, went into effect last Saturday.
 THE EVENING NEWS is a believer in the policy of protection, but there is fear that the present law is higher than the needs of the country demand. Local merchants who deal in dry goods, in imported china and porcelain, in clothing and boots and shoes will receive an immediate benefit. Their stocks are worth more than they were last Friday, as the new law has legislated about 25 cents additional value in every pair of men's shoes and in the other lines mentioned in equal proportion.
 The duty on hides which raises the price of shoes is especially obnoxious. It will benefit no one but the meat packers who already are millionaires. It will have a tendency to stop the exportation of the shoes of our factories and cause the poor man to pay more for the shoes worn by himself and children.
 No tariff measure was ever passed that was perfect and none is likely to be. If the new law brings a reasonable relief from the present conditions the faults of the new law will be generously overlooked.

 The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Our Shoe ...Advertising

Is based on good shoes. We could sell a poor shoe at a big profit just once, but we'd lose your trade. We'd rather sell a good shoe at a right profit and keep on selling all the time. It doesn't take an unusually wise head to see that we make more that way, although some cute merchants keep on trying the other way. We will make it up by selling shoes to the whole family, and while we may not make as much profit on one pair we'll make it up by selling more pairs.

LOCAL BREVITIES.

DR. Booth, the celebrated specialist from Muskegon, will be at the Hotel Benton next Wednesday.

THERE were thirty-seven excursions over the Big Four system yesterday, three of which came to this city.

THE eight-months-old daughter of Mr. and Mrs. Fred Gleim, 152 Ninth street, died yesterday of brain fever.

REV. L. W. Earl will give his famous war lecture at the college this evening. The admission will be out 10 cents.

THE great Onzo, the champion contortionist and acrobat, at the pavilion with the Baker Stock company tonight.

ACCORDING to an established rule the program at the Summer Garden changes this evening. Strong musical program interspersed with specialties by first class artists will run this week.

CONSTABLE Fye lost a pocket book Saturday containing six warrants, a note due Bernell & Son of Kalamazoo of \$14.95 and other papers. Anyone finding the same is requested to leave it at this office.

V. KAISER of Benton Harbor lost the sight in his right eye some 12 years since. For the past few months his other eye has been in trouble and failing. Dr. Antisdale operated on the best eye this morning to save the sight in it.

THERE will be a social on the pleasant lawn of A. J. Kidd, next door to Baptist church, Wednesday of this week. Ice cream and cake will be served and all that attend are promised a good time. Strangers are especially invited.

PRESIDENT Patterson, of the Milwaukee, Benton Harbor & Columbus railroad, doesn't know how he will be able to keep all his promises. Twelve different societies have succeeded in getting the promise for running the first excursion over the new road.

D. H. PATTERSON and C. D. Crouch left this morning over the West Michigan for Grand Rapids. From that city they will go to Lansing to confer with the state railroad commission relative to the crossing of the Big Four tracks in this city by the Milwaukee, Benton Harbor & Columbus.

ONE of the young ladies who came in on the Anderson excursion yesterday lost her pocket book on Water street. While waiting for a street car on the corner of Main and Pipestone streets she discovered her loss and at once began a search which ended in finding the missing book where she had dropped it.

REV. George B. Simon rather fooled the congregation at the First Baptist church Sunday morning. He told the audience that he had prepared an unusually good sermon but before he preached it was necessary to finish up a little other business. Then he sprung the debt of \$900 and didn't have time to preach at all. His success as a money raiser is explained elsewhere.

GEORGE R. Bennet of St. Joseph writes a letter from St. Joseph giving it fiercely to Benton Harbor because he says that the police stopped Frazell's band from playing on the streets yesterday because it was Sunday. THE EVENING NEWS would print the letter was it not for the fact that Mr. Bennet is wrongly informed. The band was in no way interfered with.

THE Cornell concert company tent was packed last Saturday night and they gave a great show. Tonight they give an entire change of program in fact they give a change every night this week. They go to Grand Rapids next week. The inside of the large tent is sprinkled down just before each performance, making it cool and pleasant. The Cornells are doing a fine business in Benton Harbor and they deserve it.

EIGHT "fresh air" children from Chicago were entertained last week in the home arranged for their comfort in this city. Two of the little fellows were given outings in the family of Mrs. E. S. Rose and a third one was entertained by Mrs. C. W. Vandusen. Next Tuesday the children here will return to Chicago and their places will be filled by another company of the tired little ones from the dust and smoke-begrimed city. A few of those here now attended the Baptist picnic up the St. Joseph river Saturday.

THE Baptist picnic at "Old Field" on the banks of the St. Joseph river Saturday was a very happy event. The picknickers were carried to their destination on the steamer May Graham. During the afternoon a game of baseball was pulled off between two teams captained by Rev. Simons and John Higman jr. The members of both teams were amateurs and their playing was witnessed with considerable pleasure. The game resulted in a score of 24 to 4 in favor of Mr. Higman's team. Dr. Votey umpired the game.

Yellowstone Lake.

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '97," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. agent, St. Paul, Minn.

Three Prescriptions For the Cure of Business Depression and Unhappiness—The Voyage of Life.

WASHINGTON, July 25.—This discourse of Dr. Talmage shows how all may help in the restoration of good times and ill not appropriate. Text, Lamentations iii 29, "Wherefore doth a living man complain?" A cheerful interrogatory in the most melancholy book of the Bible! Jeremiah wrote so many sad things that we have a word named after him, and when anything is surcharged with grief and complaint we call it a jeremiad. But in my text Jeremiah, as by a sudden jolt, wakes us to a thankful spirit.

Our blessings are so much more numerous than our debts that he is surprised that anybody should ever find fault. Having life, and with it a thousand blessings, it ought to hush into perpetual silence everything like criticism of the dealings of God. "Wherefore doth a living man complain?"

While everything in our national finances is brightening, for the last few years the land has been set to the tune of "Naomi." There has been here and there a cheerful soloist, but the grand chorus has been one of lamentation accompanied by dirges over prostrated commerce, silent manufacturing, unemployed mechanism and all those disorders described by the two short words, "hard times." The fact is that we have been paying for the bloody luxury of war more than 80 years ago. There were great national differences, and we had not enough Christian character to settle them by arbitration and treaty, and so we went into battle, expending life and treasure and well nigh swamping the national finances, and north and south, east and west, have ever since been paying for those four years' indulgence in barbarism.

But the time has come when this depression ought to end—yes, when it will end if the people are willing to do two or three things by way of financial medication, for the people as well as congress must join in the work of recuperation. The best political economists tell us that there is no good reason for continued prostration. Plenty of money awaiting investment. The national health with never so strong an arm or so clear a brain. Yet we go on groaning, groaning, groaning, as though God had put this nation upon a gruel and allowed us but one decent breakfast in six months. The fact is the habit of complaining has become chronic in this country, and after all these years of whimpering and wailing and obsequiousness we are under such a momentum of snivel that we cannot stop.

Three Prescriptions.

There are three prescriptions by which I believe that our individual and national finances may be cured of their present depression. The first is cheerful conversation and behavior. I have noticed that the people who are most vociferous against the day in which we live are those who are in comfortable circumstances. I have made inquiry of those persons who are violent in their jeremiads against these times and I have asked them, "Now, after all, are you not making a living?" After some hesitation and coughing and clearing their throats three or four times they say stammeringly, "Y-e-s." So that with a great multitude of people it is not a question of getting a livelihood, but they are dissatisfied because they cannot make as much money as they would like to make. They have only \$2,000 in the bank, where they would like to have \$4,000. They can clear in a year only \$5,000, when they would like to clear \$10,000, or things come out just even. Or in their trade they get \$3 a day when they wish they could make \$4 or \$5. "Oh," says some one, "are you not aware of the fact that there is a great population out of employment, and there are hundreds of the good families of this country who are at their wits' end, not knowing which way to turn?" Yes, I know it better than any man in private life can know that sad fact, for it comes constantly to my eye and ear, but who is responsible for this state of things?

Much of that responsibility I put upon men in comfortable circumstances who by an everlasting growing keep public confidence depressed and new enterprises from starting out and new houses from being built. You know very well that one dependent man can talk 50 men into despondency, while one cheerful physician can wake up into exultation a whole army of hypochondriacs. It is no kindness to the poor or the unemployed for you to join in this depression. If you have not the wit and the common sense to think of something cheerful to say, then keep silent. There is no man that can be independent of depressed conversation. The medical journals are ever illustrating it. I was reading of five men who resolved that they would make an experiment and see what they could do in the way of depressing a stout, healthy man, and they resolved to meet him at different points in his journey, and as he stepped out from his house in the morning in robust health one of the five men met him and said: "Why, you look very sick today. What is the matter?" He said: "I am in excellent health. There is nothing the matter." But, passing down the street, he began to examine his symptoms, and the second of the five men met him and said: "Why, boy, how do you look?" "Well," he replied, "I don't feel very well." After while the third man met him, and the fourth man met him, and the fifth man came up and said: "Why, you look as if you had had the typhoid fever for six weeks. What is the matter with you?" And the man against whom the stratagem had been laid went home and died. And if you meet a man with perpetual talk about hard times and bankruptcy and dreadful winters that are to come you break down his courage. A few autumns ago, as the winter was coming on, people said: "We shall have a terrible winter. The poor will be frozen out this winter." There was something in the large store of acorns that the squirrels had gathered and something in the phases of the moon and something in other portents that made you certain we were going to have a hard winter. Winter came. It was the mildest within my memory and within yours. All that winter long I do not think there was an icicle that hung through the day from the eaves of the house. So you see how easily we are misled. Last winter was common, and the people said: "We shall have a terrible winter among the poor. It will be a dreadful winter." Sure enough there was a cold winter, but there were more cheerful charities than ever before poured out on the country; better provision made for the poor, so that there have been fewer deaths than there did last winter.

After all, what do we will have from this depression? We will have from this depression, as they had in France, I do not believe it. The parallel does not run. They have no Sabbath, no Bible, no God in France. We have all these defenses for our American people, and public opinion is such that if the people in this country attempt a filibuster expedition they will land in Sing Sing or from the gallows go up on tight rope. I do not believe the people of this country will ever commit outrages and riot and murder for the sake of getting bread, but all this lugubriousness and gloom and face keeps people down. Now I will make a contract. If the people of the United States for one week will talk cheerfully, I will open all the manufacturing; I will give employment to all the unemployed men and women; I will make a lively market for your real estate that is eating you up with taxes; I will stop the long processions on the way to the poorhouse and the penitentiary, and I will spread a plentiful table from Maine to California and from Oregon to Sandy Hook, and the whole land shall carol and thunder with national jubilee. But says some one, "I will take that contract, but we can't affect the whole nation." My hearers and readers, representing as you do all professions, all trades and all occupations, if you should resolve never again to utter a dolorous word about the money markets, but by manner, and by voice, and by wit and caricature, and, above all, by faith in God, to try to scatter this national gloom, do you not believe the influence would be instantaneous and widespread? The effect would be felt around the world. For God's sake and for the sake of the poor and for the sake of the employed, quit growling. Depend upon it, if you men in comfortable circumstances do not stop complaining, God will blast your harvests, and see how you will get along without a corn crop, and he will sweep you with floods, and he will devour you with grasshoppers, and he will burn your city. If you men in comfortable circumstances keep on complaining, God will give you something to complain about. Mark that!

Christian Investment.

The second prescription for the alleviation of financial distresses is proper Christian investment. God demands of every individual state and nation a certain proportion of their income. We are parasitic! We keep back from God that which belongs to him, and when we keep back anything from God he takes what we keep back, and he takes more. He takes it by storm, by sickness, by bankruptcy, by any one of the ten thousand ways which he can employ. The reason many of you are cramped in business is because you have never learned the lesson of Christian generosity. You employ an agent. You give him a reasonable salary, and, lo, you find out that he is appropriating your funds, besides the salary. What do you do? Discharge him. Well, we are God's agents. He puts in our hands certain moneys. Part is to be ours; part is to be his. Suppose we take all, what then? He will discharge us; he will turn us over to financial disasters and take the trust away from us. The reason that great multitudes are not prospered in business is simply because they have been withholding from God that which belongs to him. The rule is, give and you will receive; administer liberally and you shall have more to administer. I am in full sympathy with the man who was to be baptized by immersion, and some one said, "You had better leave your pocketbook out; it will get wet." "No," said he, "I want to go down under the wave with everything. I want to consecrate my property and all to God." And so he was baptized. What we want in this country is more baptized pocketbooks.

I had a relative whose business seemed to be failing. Here a loss and there a loss and everything was bothering, perplexing and annoying him. He sat down one day and said: "God must have a controversy with me about something. I believe I haven't given enough to the cause of Christ." And there and then he took out his checkbook and wrote a large check for a missionary society. He told me: "That was the turning point in my business. Ever since then I have been prosperous. From that very day, ay, from that very hour, I saw the change." And, sure enough, he went on, and he gathered a fortune.

The only safe investment that a man can make in this world is in the cause of Christ. If a man give from a superabundance, God may or he may not respond with a blessing, but if a man give until he feels it, if a man give until he fetches the blood, if a man give until his selfishness cringes and twists and cowers under it, he will get not only spiritual profit, but he will get paid back in hard cash or in convertible securities. We often see men who are tight fluted who seem to get along with their investments very profitably, notwithstanding all their parsimony. But wait. Suddenly in that man's history everything goes wrong. His health fails or his reason is dethroned, or a domestic curse smites him, or a midnight shadow of some kind drops upon his soul and upon his business. What is the matter? God is punishing him for his small heartedness. He tried to cheat God, and God worsted him. So that one of the recipes for the cure of individual and national finances is more generosity. Where you bestowed \$1 on the cause of Christ give \$2. God loves to be trusted, and he is very apt to trust back again. He says: "That man knows how to handle money. He shall have more money to handle." And very soon the property that was on the market for a great while gets a purchaser, and the bond that was not worth more than 50 cents on a dollar goes to par, and the opening of a new street doubles the value of his house, or in any way of a million God blesses him.

Once the man finds out that secret and he goes on to fortune. There are men whom I have known who for ten years have been trying to pay God \$1,000. They have never been able to get it paid, for just as they were taking out from one fold of their pocketbook a bill, mysteriously somehow in some other fold of their pocketbook there came a larger bill. You tell me that Christian generosity pays in the world to come. I tell you it pays now, pays in hard cash, pays in government securities. You do not believe it? Ah, that is what keeps you back. I knew you did not believe it. The whole world and Christendom is to be reconstructed on this subject, and as you are a part of Christendom, let the work begin in your own soul. "But," says some one, "I don't believe that theory, because I have been generous and I have been losing money for ten years." Then God repaid you, that is all. What became of the money that you made in other days?

You say to your son, "Now I will give you \$500 every year as long as you live." After while you say, "Well, my son, you

Christian Investment.

The second prescription for the alleviation of financial distresses is proper Christian investment. God demands of every individual state and nation a certain proportion of their income. We are parasitic! We keep back from God that which belongs to him, and when we keep back anything from God he takes what we keep back, and he takes more. He takes it by storm, by sickness, by bankruptcy, by any one of the ten thousand ways which he can employ. The reason many of you are cramped in business is because you have never learned the lesson of Christian generosity. You employ an agent. You give him a reasonable salary, and, lo, you find out that he is appropriating your funds, besides the salary. What do you do? Discharge him. Well, we are God's agents. He puts in our hands certain moneys. Part is to be ours; part is to be his. Suppose we take all, what then? He will discharge us; he will turn us over to financial disasters and take the trust away from us. The reason that great multitudes are not prospered in business is simply because they have been withholding from God that which belongs to him. The rule is, give and you will receive; administer liberally and you shall have more to administer. I am in full sympathy with the man who was to be baptized by immersion, and some one said, "You had better leave your pocketbook out; it will get wet." "No," said he, "I want to go down under the wave with everything. I want to consecrate my property and all to God." And so he was baptized. What we want in this country is more baptized pocketbooks.

FARMING IN THE SOUTH.

NO DROUGHTS, GENIAL CLIMATE AND AVAILABLE SECTIONS ESPECIALLY ADAPTED TO SETTLEMENT BY NORTHERN FARMERS.

Almost every variety of grains and grasses grown in the North can be successfully grown in the South, but the crops that give best results for the money invested and labor expended are fruits and vegetables. Cotton is no longer King in the South. This wonderful change may possibly have been brought about by the large number of Northern farmers that have located at so many points on the Illinois Central and the Yazoo & Mississippi Valley Railroads in the States of Kentucky, Tennessee, Mississippi and Louisiana, and carried with them the

PRACTICAL IDEAS OF DIVERSIFIED FARMING

as practiced in the North. No country in America can compare with southern Mississippi and northern Louisiana for the cultivation of fruits and vegetables, and the time is not far distant when this locality will supply the early markets of the North and Northwest. All who contemplate a change of location should investigate this favored section, to aid in which, send for a free copy of the

White Dome Geyser Yellowstone Park.

A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immaculate White Dome. As one approaches, he almost expects to be challenged and asked for a countersign. If such a challenge is given it is in a curious fashion, in the form of a geyser eruption, for the White Dome is a geyser. It is not unlike the Castle Geyser, or the White Pyramid of the Upper Geyser Basin. The geyser is a very white, rather dome-shaped mound, built up from the secretions of its waters, and is the most conspicuous feature of the locality. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. Its eruptions come at intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet.

IN THE CRIMINAL COURT.

Charles Pokagon Steals a Bicycle and Goes to Jail.

Charles Pokagon, son of Chief Pokagon of the Pottawatomie tribe of Indians, was arrested Saturday night on complaint of stealing a bicycle owned by George Filger. The wheel was taken from a back room in the Fonger house and was found in possession of Charles Pokagon Saturday evening. The young man was arraigned before Justice Cady this morning. He maintained that he did not steal the wheel and his trial was adjourned until next Friday at 1 o'clock when the father of the young man will be present.

Judge Sterns this morning passed sentence on five wayward tramps who got drunk Sunday. He gave them the alternative of appearing before a justice and receiving a sentence of two or three days on the stone pile or taking his sentence without an arraignment which required them to labor for the city pounding stone until 11 o'clock today. It is needless to say that the tramps accepted the latter.

William Mitchell made threats and flourished a knife rather carelessly Sunday night on Water street. He was arrested by Officer Johnson and this morning was sentenced to 60 days in the county jail by Justice Cady.

James Mullen, a hobo, created an uproar at Stevensville Saturday night. He resorted to Jesse James' tactics. He wanted to kill somebody and the officers arrested him. He was brought to the county jail by Sheriff Ferguson and this morning Justice Baldrey gave him 60 days.

Peter Peterson, the alleged would-be sweetheart slayer, imprisoned in the county jail awaiting a hearing in the circuit court is not ill. He has a voracious appetite and is getting fat off the jail diet. He is nervous but suffers no great indisposition as has been reported.

Miss Helen and Russell Campbell, after a visit of several days with Mr. and Mrs. A. G. Dexter, returned to their home at Newton, Ind., this morning.

BOATS AND SEAMEN.

The steam yacht Pathfinder was in port yesterday, arriving early in the morning. She cleared last night.

The steamer City of Duluth will arrive in port this afternoon with a cargo for the Big Four railway company.

The schooners George W. Naghtin and Day Spring are in port, the former with a cargo of lumber for the Brookings company and the latter carrying lumber for Mott & Michaels.

The government steamer Dahlia brought in a quantity of supplies for the station at St. Joseph last evening. She also left a Pinch gas buoy, which is a veritable light house and portable at that. A light in the top of the buoy burns continually for a period of three months without any attention. The buoy will probably be used at the mouth of the harbor here. The Dahlia cleared this afternoon.

C. R. KOLLIN & SON.

...a new and improved system of... which all the world thought to be the ultimate perfection for the production of that sort of tone, has been branded as a back number.

Dr. Richard Elsemann of Berlin, for years a pupil of Professor Von Helmholtz, has patented a system which does away with the levers entirely. He calls this new appliance the electrophonic piano, its distinctive principle consisting in the fact that the vibrations of the chords are not produced by hammers, but by an electric current and by means of microphones acting as interrupters of currents.

All the delicate and complex mechanism of the old piano is done away with. The little electric devices are arranged on the crosspiece extending over the strings. Upon this electric magnets are placed so as to be only a hair's breadth from the strings.

Pressing down the key sends the electric current into the corresponding electromagnet. This attracts the metallic string below, but the microphone interrupts the current and therewith the attraction. The string returns to its former place, and this continued attraction and interruption of the current are carried on, the number of vibrations being regulated by the pitch of the string.

The high sounds produced by this method have a decided harp tone, and the lower and middle registers suggest the cello or the organ. In reality, the installation of this new system creates a new instrument, so different are the qualities of sound produced by the new method and the old.—New York Journal.

The Rod In School.

We once knew an old man who had much experience with boys, who declared, "You never hit a boy a lick amiss unless you miss him when you hit at him." There is a good deal of nonsense in the sentimental rot about "I'll allow no man to whip my boy." If your boy needs it, you'd better thank his teacher for licking him.—Augusta Chronicle.

Wedding rings were first used by Christians about the year 860, but the ancient Egyptians and Romans used them. The fashion of the plain gold wedding ring is Saxon.

WILL DIG FOR GOLD.

E. E. Rouse and Dr. Freemyer Will Dig Beneath the Waves of the St. Joseph River.

WILL EXPLORE AN ISLAND.

They Will Leave Tomorrow With a Kit of Miners' Tools and Lots of Faith.

Nine miles up the St. Joseph river there is an island which has held its secret well away from all adventurers. It is full of electricity or magnetism and they who would till its soil or dig beneath its surface have been mysteriously and effectually scared away. The spade is stuck into the earth but the man who holds it feels an electric shock and his hands refuse to hold the handle. He experiences the same sensation as the man who grasps a live electric wire.

In connection with the many legends connected with this island there is an Indian tradition that in the early days the pirates who then operated on the lakes hid their treasure of Spanish coin in the earth of this island. According to the Indian belief fabulous riches are buried in the electricity protected islands.

Tomorrow morning E. E. Rouse and Dr. Freemyer will start out on one of the river boats and stop at the island. They will go with spades and picks and with rubber gloves to protect their bodies from the fierce currents of electricity with which the ground is charged.

These gentlemen will sink shafts and explore the island and expect to be gone about two days.

YESTERDAY'S EXCURSIONS.

Eight Hundred People Went to Michigan City.

Eight-hundred persons boarded the steamer City of Louisville for Michigan City yesterday morning and enjoyed a delightful excursion given by Frazell's military band. The boat carried three bands, Frazell's and the Stevensville and Baroda organizations. The excursionists were given four hours in Michigan City which were spent in an inspection of the state prison and in the parks. Some of the excursionists were sadly drenched by a rain storm that came up just as the boat left the dock on its return trip. The band cleared \$50 out of the excursion.

The steamer City of Milwaukee carried upwards of 1,000 passengers on her trip from Chicago yesterday afternoon.

At least 2,000 strangers from Indiana spent Sunday in the twin cities. An excursion train of six coaches from Milford and Warsaw came in early in the morning accompanied by the Milford band. This was followed by the first section of the Anderson excursion consisting of eight coaches, the train coming here about 12 o'clock and about a half hour later the second section of the Anderson excursion of seven coaches came in. The last train had considerable difficulty in reaching here on account of trouble with the engine.

J. O. Walsh, excursion agent of the Vandavia and Graham & Morton company, brought in an excursion from South Bend Saturday night. The crowd was transferred from the train to the steamer City of Chicago and went to Chicago. There were eight well filled coaches.

Was Held by the Y. M. C. A. Yesterday.

Dr. F. A. Votey conducted a very interesting and profitable men's meeting at the Young Men's Christian association rooms yesterday afternoon at 3 p. m.

Various phases of Y. M. C. A. work were discussed by the following persons, Dr. Votey in a very pleasing talk told of the influences that led him into the active work in Worcester, Mass., while a medical student there; also of his subsequent connection with the Central association in New York city.

Rev. Simons spoke of the railroad department of the work. He impressed the fact that a great work has been and is being done among the railroad men. As a result of the good work done by the association among the employed men the railroad companies had erected buildings well equipped and given to the Y. M. C. A.

Charles Tompkins spoke on the college work. The future leadership depends upon our college men of today. The Young Men's Christian association is an important factor in moulding that leadership.

The principle address was given by Charles Scott of Lowell, Mass. He spoke of the work in the east, having been closely connected with the work of the Lowell association as financial secretary. Some practical plans for raising finances were brought forth during his address.

Good music was a prominent feature of the hour's meeting.

All men are cordially invited to attend the meeting next Sunday at 3 p. m.

THE WEATHER.

Showers this afternoon and tonight. Cooler tonight. Rain in eastern Michigan tomorrow.

WAS HERE SUNDAY.

Vice President Deam Keeps Out of the Law's Clutches.

Vice President Deam of the Benton Harbor Electric road spent Sunday in this city. He came in after Saturday was done and got away before Monday began. Consequently the order of Judge Coolidge to open forthwith the safe of the company could not be served upon him.

It is whispered about the offices of the company that Deam's aversion to opening the safe may be accounted for in that some of the contents of the safe may have mysteriously disappeared about the time the combination was changed.

THE CAR FERRY LINE

It Will Begin Operation Tomorrow Morning According to Present Plans.

BIG FERRY TO ARRIVE TODAY

Twenty-one Cars Waiting to be Loaded for the First Trip Across the Lake.

The Big Four railway car ferry line from this city to Manitowoc will begin operation tomorrow according to the present plans of the Big Four.

One of the big ferries is expected in port this afternoon and the company has 21 car loads of freight ready for transfer by ferry. The ferry will be loaded tomorrow morning and will leave immediately across the lake.

THE OTHER SIDE.

What John Buckman Has to Say Concerning His Son-in-law.

Mr. John Buckman, father-in-law of Jake Hushaw, who was Friday placed under bonds to keep the peace, insists that he nor his family have made any attempt to estrange Hushaw and his wife. Mr. Buckman denies the existence of any conspiracy on his part or on the part of any member of his family to annoy and burden the life of his daughter because she is disposed to continue to live with Hushaw. He says he has treated Hushaw and his wife with the consideration due from a dutiful parent and that the claim by Hushaw that he was the victim of unkind and cruel treatment is false.

"I have never lost an opportunity to help Hushaw and since he became my son-in-law I have given him several hundred dollars, donated his house rent and encouraged him in every possible way," said Mr. Buckman to THE NEWS this morning. "The trouble started three years ago when I leased my farm to Delmer Laplant. Hushaw was angered over the transaction and shortly after left home and was absent nearly six months during which time I supported his wife and children. One of his babies died during his absence and I stood all the burial expenses. We have helped his wife a great deal, and our attitude has never been intended to cause her misery. We have always been solicitous for her welfare."

Mr. Buckman has been a resident of this county for 40 years and during that time he has never before been connected with any lawsuit. He is a member of the United Brethren church and one of the accusations he makes against Hushaw is that he will not permit his wife to attend church.

ABOUT THE COUNTY.

Sodus.

SODUS, July 26—Robert M. Hogue returned home from St. Paul Friday evening with Uncle Peter Sharral who was taken ill while on his way home from the far northwest. Mr. Hogue went in answer to a telegram from the postal authorities of St. Paul.

Mrs. J. S. McKinsey had quite a serious runaway a few days ago. While driving home from Pipestone her horse became frightened, throwing her out and breaking a thumb and finger.

There will be an ice cream social at the McGowan & Shell hall on Friday evening, July 30, given under the auspices of the Epworth league of the M. E. church. Come everybody and enjoy the delicious ice cream and cake and have a pleasant and social time with the young people.

A little son of C. E. King fell down a bank Thursday and broke his left leg in the hip. Dr. McCartney was called and reduced the fracture.

THE MINE STRIKE IS TO BEGIN IN THE MOUNTAIN STATE.

That is what observers think.

THAT IS WHAT OBSERVERS THINK.

Debs and Others Held Meetings and a House-to-house Canvass Is Made—Gompers Calls for a Meeting of Heads of Thirty-Eight Unions at Wheeling Tomorrow—Change of Tactics Against De Armit—Western Strike News.

Fairmont, W. Va., July 26.—Debs held three good meetings at the various mines yesterday and is confident that the men will be gotten out, although he will not say he expects the move today. The general impression is that if the break is not made today it will not be made at all. It is hard to tell what the men will do. Yesterday the operators succeeded in keeping many of them from the meetings and it looks as easy to keep them in the mines. Mahon left yesterday afternoon for Clarksburg, where he and Rea addressed meetings. A house to house missionary work is being done by the miners and will be continued. If the project to get the men here out fails all the organizers will leave this district and an effort will be made to stop the running of coal trains.

It is the Unexpected That Happens. All the mines are guarded by deputies and no men are allowed on the company's grounds. A body of organized men stayed at each of the different mines last night and a herculean effort is to be made to induce the men not to go to work today. Rumors of all kinds are afloat, but no trouble is expected. Today will certainly settle the strike one way or the other, so far as this region is concerned.

May Call for a General Strike. Clarksburg, W. Va., July 26.—The miners' meeting advertised for yesterday has proven a great success from the miner's standpoint. On every train scores of miners arrived. At 7 o'clock last night about 500 miners and double that number of citizens were at the place of meeting. W. D. Mahon, president of the National Street Car union, spoke for two hours. He stated that if this strike was lost it would be on account of the West Virginia miners, and that a general boycott would be declared against all West Virginia coal in the future by all organizations of labor in the United States. Over 100 men said they would join the union. There is no doubt but that all will go out tomorrow. Mahon says that at Wheeling tomorrow action will be taken that will cause a settlement at once or a general strike will be called for.

Atkinson Accuses the Leaders of Lying. Charleston, W. Va., July 26.—Governor Atkinson's attention was last night called to the charge made by the strike organizers that free speech was not allowed in West Virginia. The governor said: "It is not true that any municipality in West Virginia has interfered with labor organizations in any shape. All organizers who have come into this state have been allowed the greatest liberty of speech. I believe in the right of labor to organize for mutual advancement. I have received a copy of the resolutions passed by a labor organization in Washington, D. C., in which I am denounced as a coward and my action as blood-thirsty. The action of the Washington organization is contemptible because it has not one scintilla of truth upon which to base it."

Made the Injunction Permanent. Altoona, Pa., July 26.—Last Tuesday Judge Bell, of Cambria county, granted a preliminary injunction enjoining some forty-five striking miners, who are residents of Gallitzin, and their wives and others from congregating in the vicinity of J. L. Mitchell & Co.'s coal mines and using threats and abusive language calculated to frighten the imported miners now employed in the mines. The injunction also forbade gatherings at the railroad station and other places in the town for the purpose of intimidating the men now employed or to be hereafter employed by the Mitchell company. Saturday the hearing was held and the injunction made permanent against forty of the defendants.

Gompers Calls on the Union Chiefs. Washington, July 26.—President Gompers, of the American Federation of Labor, Saturday sent telegrams to officers of thirty-eight national trade unions calling for a conference to be held at Wheeling, W. Va., at noon tomorrow. This was done in response to the telegram from President W. D. Rathford, of the United Mine Workers of America, sent out Friday night.

LEGAL TEST OF A NEW LAW. That on Screens To Be Used Against De Armit—Another Raid.

Pittsburg July 26.—Instead of marching on the New York and Cleveland Gas Coal company's mines, as first determined on by the miners, the executive board at a special meeting has decided to make a legal test of the new state mining law. It is claimed that De Armit's miners are being worked in violation of this law, and suits will be entered and pushed with unusual vigor. According to the new law if an operator does not have his coal weighed before it goes over a screen he is guilty of a misdemeanor and subject to a fine of not less than \$100, nor more than \$500, or imprisonment not to exceed ninety days, or both at the discretion of the court for each offense. De Armit says that law is unconstitutional.

Pittsburg, July 26.—Sixty deputy sheriffs have been ordered out. Their designation has been kept a profound secret, but it is supposed they are to be sent to the mines of the New York and Cleveland Gas Coal company in anticipation of any raid that may be made. As the strikers' officials declare that the contemplated march has been abandoned no conflict is expected. Another search on Canonsburg was begun last night. A big meeting of miners was held at Reising at 3 o'clock yesterday afternoon. They were informed that the Allison mine intended to resume work yesterday morning, and in a very short time it was decided to make another tramp across the country and reinforce the 100 strikers that have been on guard. They will remain until tomorrow morning. There was a great hurrying to and fro in all the mining settlements in that section.

STRIKE NEWS FROM THE WEST. Kansas Miners Refuse to Strike, but Will Not Dig Coal for the East. Pittsburg, July 26.—The delegate convention representing southeastern Kansas coal miners, in secret session here Saturday adopted resolutions indorsing the eastern strike, but decided by an overwhelming majority against a sympathetic strike. Organizers T. B. McGregor, presenting credentials from Secretary Ryan, of the United Mine Workers of Illinois, was refused admittance to the meeting. A leading labor man who has been national president of one of the greatest organizations in the United States said yesterday: "The operators must not think they can smuggle coal out of Kansas to go into strike territory. It is one of the doctrines of organized labor that whenever one set men commence to do work that is to the injury of organized labor the work becomes scab work. The miners of southern Kansas are union men. As long as they mine coal for Kansas and territory which they have been accustomed to supply they are occupying neutral ground, and are not interfering. When they mine coal to be used in territory usually supplied by miners who are striking they become in the eyes of organized labor what we call scabs."

Coal is non-union coal as soon as it gets into strike territory." Bevier, Mo., July 26.—At the general mass meeting of miners held here delegates to the state miners' convention to be held in Sedalia on the 27th were selected. By a vote of 88 to 65 the delegates were instructed to vote to work only three days a week until the strike in the east is settled. The delegates were also instructed to use their best endeavors with the state meeting to arrange for cheaper powder and blacksmithing work. The meeting was attended by more than 200 out of 700 miners here.

Brazil, Ind., July 26.—The block coal miners met in mass convention here Saturday and reported every mine idle. Committees were appointed to visit many parts of the state and solicit aid for the needy strikers in the block fields. A letter was read from President Rathford, stating that the national organization could not aid the miners in a financial manner, as less than \$650 had been received by them and it was necessary to use this in getting West Virginia out. He said the report that the national committee had received a donation of \$50,000 was a fake. The donation was \$50. Oskaloosa, Ia., July 26.—The coal miners of the Oskaloosa Coal and Mining company at Beacon and Garfield mines held a mass-meeting Saturday afternoon on account of petty grievances of a local nature, made demands upon the operators, and will strike unless the demands are granted. The trouble has the appearance of a local grievance, but it is thought that the eastern trouble is at the bottom of it.

Induced to Quit Work. Mascoutah, Ill., July 26.—At 4 o'clock Saturday afternoon a second delegation of 250 strikers sent here from Bradley's army, now encamped at Belleville, marched into Mascoutah to compel the miners here who had again resumed work at the Beatty and Kolb pits to remain out of the shafts. They marched to the pits with flags flying, and after a short conference induced the men to return to their homes. They are not disposed to quit and are not members of the union. The Bradley delegation informed the men that if they resumed work before the strike was declared off they might expect another and sterner visit.

THE EVENING NEWS.

SECOND YEAR—NO. 561.

BENTON HARBOR, MICH., MONDAY, JULY 26, 1897.

ONE CENT.

ALASKA GOLD CRAZE.

No Abatement of the New Contagion Yet Felt Among the Enthusiasts of this City.

MANY WANT TO DIG FOR GOLD.

A Nephew of A. A. Johnson Left for the Promised Land Saturday Night.

A. A. Johnson, of this city, spent Sunday in Chicago purchasing a complete outfit for an expedition to the Alaskan gold fields. The outfit will not be used by Mr. Johnson but by Omer Maris, his nephew, who is connected with the Chicago Record.

Mr. Maris has been to Alaska before and from Juneau he will make the trip overland by the use of dogs and a canvas boat twelve feet long which will carry him through the rapids the tourist is compelled to shoot. He bought his boat in Chicago, and among the articles of equipment were rubber boots and canvas wading boots. The newspaper man also bought seven solid silver watches and several solid silver rings. He explained to Mr. Johnson that he would trade these articles to the Indians for being packed across the dangerous passes. Mr. Johnson asked him why he bought solid silver cases as the Indians couldn't tell a washed case from the genuine and the answer was that perhaps he would like to trade with the same Indians at some other time. The Alaskan Indians will pay more for a silver watch than they would for one made of gold.

Mr. Maris has been all over Alaska and the stories of privations and hardships he thinks are overdrawn. He was in Alaska over a year and gained fifteen pounds in weight and was never better in health in all his life.

At Dyea, the last village reached in Alaska before entering the mountains, the traveler will buy his supply of furs and food. As a sample of the prices he says, that on his last visit bacon could be bought at Dyea for 84 cents a pound.

Experienced travelers look upon the gloomy predictions of starvation in Alaska this winter with much suspicion. The steamboat fare from Seattle to Juneau is \$15 and boats can make the trip in a few hours. All the food necessary to feed half a million people can be rushed into Alaska this fall and the 600 miles between Juneau and Dawson City can be traversed by the natives and the food carried to the mining camps.

Former Postmaster Nichols, who was at Leadville in its best days has decided to go this fall and there are many others who are strongly talking Alaska. Mr. Nichols will keep his interest in the Hall & Nichols drug store during his absence and the fortune he finds will be brought to Benton Harbor.

BEALER LOCKED UP.

The Eloping New Buffalo Couple Have Some Trouble.

NEW BUFFALO, July 26.—Upon the arrival here Friday night of Mr. and Mrs. W. F. Bealer, the elopers, Bealer was placed under arrest by order of his wife's father, Dr. August Berkholtz, and imprisoned in the city jail.

His wife made a pitiful plea for forgiveness and succeeded in melting her father's heart, whereupon Bealer was released and a reconciliation which brought the young son-in-law face to face with his wife's angry father ensued. He was received with some show of dignity, but the coldness wore away and when Mr. and Mrs. Bealer, bade their parents goodbye late Friday evening and departed for Three Oaks, their future home, there was evidences of affection seen.

THE COLOMA RACES.

A Paw Paw Horse Won in the Free For All.

On Saturday afternoon occurred the third matinee of Maple Point driving park, Coloma, under the auspices of Hobart G. Lyon. The weather was good and the attendance the largest it has yet been, nearly 600.

THE EVENING NEWS ran an excursion which was accompanied by the Newsboys' band and fairly well patronized by both St. Joseph and Benton Harbor people. The music furnished by the boys at the grounds was highly appreciated by those present.

The events on the card, although won in straight heats, were hotly contested.

In the free-for-all Miss Van Ness was the favorite, and Watervliet money was plentiful before the first heat was taken by Electric and it was apparent that Miss Van Ness had met her match in both Electric and Hart. In the second heat Hart came under the wire second with one pneumatic tire dangling to the frame of the bicycle and in the third heat he was driven by Mr. Abbott to a road cart being so much handicapped thereby that he only got third place in the heat and race.

In the Gentlemen's Driving class Myri, owned and driven by Vol Manley, of Hartford, won handily. Bull E. was put back to fifth place in the first heat for running but took second in the second and third heats and in the race.

ABOUT THE COUNTY.

Sodus.

SODUS, July 26.—James Perine Hamilton, the blind lecturer, traveler and scholar, gave his very interesting lecture, "What a Blind Man Saw in Europe," at the M. E. church in this place Friday night. For over an hour Mr. Hamilton held the close attention of the audience which nearly filled

the house, and all agreed that it was an evening well spent. His power of description make the journey almost real and the numerous pleasing incidents of the lecture could not help but please the most fastidious. Should Mr. Hamilton ever return to Sodus he will probably be greeted with a larger audience than welcomed him Friday night.

GORED BY A COW.

William Chadwick and Two Children the Victims

William Chadwick and two of his children came dangerously near being gored to death by an angry cow Friday. The tragedy occurred on Mr. Chadwick's farm two miles south of the city.

A neighbor's cow broke into Mr. Chadwick's corn-field and two of the Chadwick children were sent to drive the brute out.

The cow attacked them and had tossed one of them into the air when the father rushed to their relief. The ugly brute then rushed upon Mr. Chadwick, threw him to the ground and was attempting to fasten her horns in him when Mr. Chadwick's dog appeared. He grabbed the maddened brute by the ear and diverted her attention long enough to allow Mr. Chadwick and the children to escape.

Mr. Chadwick now asserts that he would not part with his dog for \$100 in Klondike gold.

RAISED \$600.

Baptist Church Responds Liberally to Pastor's Solicitation.

The large congregation which was present at the Baptist church yesterday morning was treated to a surprise. After the introductory services, pastor Simons said that he had a good sermon ready for delivery, but that before he proceeded to give it he desired to ask for the trifling sum of \$600 to enable the church to begin a new year, October 1 without debt. Mr. John Higman jr., of the board of trustees, also made a short statement after which subscriptions were called for and the considerable sum of \$608.80 was soon raised and a special committee was appointed to canvas the membership not present for the purpose of raising the balance needed.

Churches as well as business concerns have felt the hard times severely, and the First Baptist church, which has been under heavier expense for the past four years than ever before is deserving of commendation for its financial exploit of yesterday.

DAINTY TWINS.

Two Young Maidens Inseparably Connected for Life.

It is more than probable that all the ladies and children visiting the Barnum & Bailey Greatest Show on Earth this year will fall desperately in love with the wonderful young lady twins, who are to be seen in the menagerie tent with the giant and the little man, the latter weighing less than seven pounds. The pretty twins are named Lodica and Doodica, and they remind one of humming birds, so vivacious and lively are their movements. The Liverpool, England, Courier, in mentioning them said, "they flitted to and fro, through the drawing room, flashing from one visitor to another, smiling and showing the whitest of teeth and the brightest of eyes—set like jewels in their olive faces. The costumes they wear add considerably to the brilliancy of their appearance. One dusky little beauty has a ring in her nose. In the approved East Indian fashion, and both wear ear-rings, armlets, wristlets, and anklets of silver, and jeweled neckbands. Their dresses attracted general attention and admiration. They wore little Turkish trousers of deep crimson satin, and blouses of heliotrope silk, trimmed with cascades of cream lace, and high boots of red morocco leather edged with grey fur. Their out-of-door coats were of blue plush, with deep colors of point lace." They dance, sing, play, and gambol just like other children, only, of course, doing so together, as they are attached to each other in the most wonderful manner, from the hips to the shoulders and cannot by any human means be separated without fatal results. Both are hungry at the same time and all functions are performed simultaneously so that they afford the most remarkably interesting, as well as wonderful, object of curiosity ever discovered. In the same tent with them are all the attractions of the big menageries, such as Johanna, the giantess gorilla, 24 elephants, 50 cages of wild beasts, the snake charmers, male and female magicians, jugglers, lightning calculator, fire kings, dancers, and players upon odd, curious, and quaint musical instruments. This forms a separate entertainment from, and takes place before, the regular circus performances in the rings, on the stages, on the race track, and in the aerial enclaves, in all of which fully one hundred startling acts are given. All will be here on Saturday, August 7, with the Columbus pageant and great 40-horse team, free on the streets.

LOCAL BREVITIES.

DR. Booth, the celebrated specialist from Muskegon, will be at the Hotel Benton next Wednesday.

THERE were thirty-seven excursions over the Big Four system yesterday, three of which came to this city.

THE eight-months-old daughter of Mr. and Mrs. Fred Gletli, 152 Ninth street, died yesterday of brain fever.

REV. L. W. Earl will give his famous war lecture at the college this evening. The admission will be but 10 cents.

THE great Onzo, the champion contortionist and acrobat, at the pavilion with the Baker Stock company tonight.

ACCORDING to an established rule the program at the Summer Garden changes this evening. Strong musical program interspersed with specialties by first class artists will run this week.

CONSTABLE Fye lost a pocket book Saturday containing six warrants, a note due Bernell & Son of Kalamazoo of \$14.95 and other papers. Anyone finding the same is requested to leave it at this office.

V. KAISER of Benton Harbor lost the sight in his right eye some 12 years since. For the past few months his other eye has been in trouble and failing. Dr. Antisdale operated on the best eye this morning to save the sight in it.

THERE will be a social on the pleasant lawn of A. J. Kidd, next door to Baptist church, Wednesday of this week. Ice cream and cake will be served and all that attend are promised a good time. Strangers are especially invited.

PRESIDENT Patterson, of the Milwaukee, Benton Harbor & Columbus railroad, doesn't know how he will be able to keep all his promises. Twelve different societies have succeeded in getting the promise for running the first excursion over the new road.

D. H. PATTERSON and C. D. Crouch left this morning over the West Michigan for Grand Rapids. From that city they will go to Lansing to confer with the state railroad commission relative to the crossing of the Big Four tracks in this city by the Milwaukee, Benton Harbor & Columbus.

ONE of the young ladies who came in on the Anderson excursion yesterday lost her pocket book on Water street. While waiting for a street car on the corner of Main and Pipestone streets she discovered her loss and at once began a search which ended in finding the missing book where she had dropped it.

REV. George B. Simon rather fooled the congregation at the First Baptist church Sunday morning. He told the audience that he had prepared an unusually good sermon but before he preached it was necessary to finish up a little other business. Then he sprung the debt of \$900 and didn't have time to preach at all. His success as a money raiser is explained elsewhere.

GEORGE R. Bennett of St. Joseph writes a letter from St. Joseph giving it fiercely to Benton Harbor because he says that the police stopped Frazzell's band from playing on the streets yesterday because it was Sunday. THE EVENING NEWS would print the letter was it not for the fact that Mr. Bennett is wrongly informed. The band was in no way interfered with.

THE Cornell concert company tent was packed last Saturday night and they gave a great show. Tonight they give an entire change of program in fact they give a change every night this week. They go to Grand Rapids next week. The inside of the large tent is sprinkled down just before each performance, making it cool and pleasant. The Cornells are doing a fine business in Benton Harbor and they deserve it.

EIGHT "fresh air" children from Chicago were entertained last week in the home arranged for their comfort in this city. Two of the little fellows were given outings in the family of Mrs. E. S. Rose and a third one was entertained by Mrs. C. W. Vandusen. Next Tuesday the children here will return to Chicago and their places will be filled by another company of the tired little ones from the dust and smoke-begrimed city. A few of those here now attended the Baptist picnic up the St. Joseph river Saturday.

THE Baptist picnic at "Old Field" on the banks of the St. Joseph river Saturday was a very nappy event. The picnickers were carried to their destination on the steamer May Graham. During the afternoon a game of base ball was pulled off between two teams captained by Rev. Simons and John Higman jr. The members of both teams were amateurs and their playing was witnessed with considerable pleasure. The game resulted in a score of 24 to 4 in favor of Mr. Higman's team. Dr. Votey umpired the game.

Samuel Heath, of Plainwell, spent Sunday with his sister, Mrs. W. E. Kennedy in this city.

Superintendent Blizzard and Attorney C. E. Coggie, of the Big Four railway, are in the city.

Mrs. William Ricaby who has been visiting relatives here returned to her home at Belding yesterday.

Mrs. W. S. Day and daughter, Miss Besse, of Vicksburg, are visiting Mrs. G. H. Reimer, 117 Niles avenue.

Mr. and Mrs. Herbert Webb, of Anderson spent yesterday the guests of Mrs. Webb's parents, Mr. and Mrs. I. Sherwood.

Mrs. Alice Rose and daughter, Bessie, of Gallien, are spending a few days at the home of H. L. Cone, Spring Bluff resort.

Mrs. A. S. Miles, who has been visiting at Watervliet and Paw Paw lake for the past month, returned to her home here Saturday.

Rev. Dr. Cole a Baptist clergyman and formerly Chaplain of Gen. John A. Logan's regiment, the 1st Illinois, is spending a few days in Benton Harbor as the guest of C. W. Whitehead. Dr. Cole was present at the Baptist church yesterday morning and took part in the opening services.

Yellowstone Lake.

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '97," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. agent, St. Paul, Minn.

A Divine Promise.

People quote as a joke what is a divine

promise. "Cast thy bread upon the waters

and it will return to thee after many

days." What did God mean by that?

There is an allusion there. In Egypt

when they sow the corn it is at a time

when the Nile is overflowing its banks, and

they sow the seed corn on the waters, and

as the Nile begins to recede this seed corn

strikes in the earth and comes up a har-

vest, and that is the allusion. It seems as

if they are throwing the corn away on the

waters, but after awhile they gather it up

in a harvest. Now says God in his word,

"Cast thy bread upon the waters and it

shall come back to thee after many days."

It may seem to you that you are throwing

it away on charities, but it will yield a

harvest of green and gold—a harvest on

earth and a harvest in heaven. If men

could appreciate that and act on that, we

would have no more trouble about indi-

vidual or national finances.

Prescription for the third, for the cure of

all our individual and national financial

distresses—a great spiritual awakening.

It is no more theory. The merchants of

this country were positively demented

with the monetary excitement in 1857.

There never before nor since has been such

a state of financial depression as there was

at that time. A revival came, and 500,000

people were born into the kingdom of God.

What came after the revival? The grand-

est financial prosperity we have ever had

in this country. The finest fortunes, the

largest fortunes in the United States,

have been made since 1857. "Well," you

say, "what has spiritual improvement

and revival to do with monetary improve-

ment and revival?" Much to do. The re-

ligion of Jesus Christ has a direct ten-

dency to make men honest and sober and

truth telling, and are not honesty and so-

berly and truth telling auxiliaries of mat-

terial prosperity? If we could have an

awakening in this country as in the days

of Jonathan Edwards of Northampton, as

in the days of Dr. Finley of Basking

Ridge, as in the days of Dr. Griffin of

Boston, the whole land would round to a

higher moral tone, and with that moral

tone the honest business enterprise of the

country would come up. You say a great

awakening has an influence upon the fu-

ture world. I tell you it has a direct in-

fluence upon the financial welfare of this

world. The religion of Christ is no foe to

successful business. It is its best friend.

And if there should come a great awaken-

ing in this country, and all the banks and

insurance companies and stores and offices

and shops should close up for two weeks

and do nothing but attend to the public

worship of Almighty God, after such a

spiritual vacation the land would wake up

to such financial prosperity as we have

never dreamed of. Godliness is profitable

for the life that now is as well as for that

which is to come; but, my friends, do not

put so much emphasis on worldly success

as to let your eternal affairs go at loose

ends. I have nothing to say against

money. The more money you get the bet-

ter, if it comes honestly and goes usefully.

For the lack of it sickness dies without

medicine, and hunger finds its coffin in an

empty bread tray, and nakedness shivers

for clothes and fire. All this canting tri-

ade against money as though it had no

practical use, when I hear a man indulge

in it, it makes me think the best heaven

for him would be an everlasting poor-

house. No, there is a practical use in

money, but while we admit that, we must

also admit that it cannot satisfy the soul;

that it cannot pay for our ferrago across

the Jordan of death; that it cannot un-

lock the gate of heaven for our immortal

soul.

A Word of Warning.

Yet there are men who act as though

packs of bonds and mortgages could be

traded off for a mansion in heaven and as

though gold were a legal tender in that

IN THE CRIMINAL COURT.

Charles Pokagon Steals a Bicycle and Goes to Jail.

Charles Pokagon, son of Chief Pokagon of the Pottawatomie tribe of Indians, was arrested Saturday night on complaint of stealing a bicycle owned by George Filger. The wheel was taken from a back room in the Fonger house and was found in possession of Charles Pokagon Saturday evening. The young man was arraigned before Justice Cady this morning. He maintained that he did not steal the wheel and his trial was adjourned until next Friday at 1 o'clock when the father of the young man will be present.

Judge Storns this morning passed sentence on five wayward tramps who got drunk Sunday. He gave them the alternative of appearing before a justice and receiving a sentence of two or three days on the stone pile or taking his sentence without an arraignment which required them to labor for the city pounding stone until 11 o'clock today. It is needless to say that the tramps accepted the latter.

William Mitchell made threats and flourished a knife rather carelessly Sunday night on Water street. He was arrested by Officer Johnson and this morning was sentenced to 60 days in the county jail by Justice Cady.

James Mullen, a hobo, created an uproar at Stevensville Saturday night. He resorted to Jesse James' tactics. He wanted to kill somebody and the officers arrested him. He was brought to the county jail by Sheriff Ferguson and this morning Justice Baldrey gave him 60 days.

Peter Peterson, the alleged would-be sweetheart slayer, imprisoned in the county jail awaiting a hearing in the circuit court is not ill. He has a voracious appetite and is getting fat off the jail diet. He is nervous but suffers no great indisposition as has been reported.

Hill Smith and the Misses Mabel Ormsby and Ellen Collins were among the Chicagoans here yesterday.

Miss Helen and Russell Campbell, after a visit of several days with Mr. and Mrs. A. G. Dexter, returned to their home at Newton, Ind., this morning.

BOATS AND SEAMEN.

The steam yacht Pathfinder was in port yesterday, arriving early in the morning. She cleared last night.

The steamer City of Duluth will arrive in port this afternoon with a cargo for the Big Four railway company.

The schooners George W. Naghtin and Day Spring are in port, the former with a cargo of lumber for the Brookings company and the latter carrying lumber for Mott & Michaels.

The government steamer Dahlia brought in a quantity of supplies for the station at St. Joseph last evening. She also left a Pinch gas buoy, which is a veritable light house and portable at that. A light in the top of the buoy burns continually for a period of three months without any attention. The buoy will probably be used at the mouth of the harbor here. The Dahlia cleared this afternoon.

The Piano of the Future.
No more hammers in pianos. The old fashioned method of pounding music out of wires by the aid of a wonderfully complicated system of levers and keys, which all the world thought to be the ultimate perfection for the production of that sort of tone, has been branded as a back number.

Dr. Richard Eismann of Berlin, for years a pupil of Professor Von Helmholtz, has patented a system which does away with the levers entirely. He calls this new appliance the electrophonic piano, its distinctive principle consisting in the fact that the vibrations of the chords are not produced by hammers, but by an electric current and by means of microphones acting as interrupters of currents.

All the delicate and complex mechanism of the old piano is done away with. The little electric devices are arranged on the crosspiece extending over the strings. Upon this electric magnets are placed so as to be only a hair's breadth from the strings.

Pressing down the key sends the electric current into the corresponding electromagnet. This attracts the metallic string below, but the microphone interrupts the current and therewith the attraction. The string returns to its former place, and this continued attraction and interruption of the current are carried on, the number of vibrations being regulated by the pitch of the string.

The high sounds produced by this method have a decided harp tone, and the lower and middle registers suggest the cello or the organ. In reality, the installation of this new system creates a new instrument, so different are the qualities of sound produced by the new method and the old.—New York Journal.

The Rod In School.

We once knew an old man who had much experience with boys, who declared, "You never hit a boy a lick amiss unless you miss him when you hit at him." There is a good deal of nonsense in the sentimental rot about "I'll allow no man to whip my boy." If your boy needs it, you'd better thank his teacher for licking him.—Augusta Chronicle.

Wedding rings were first used by Christians about the year 860, but the ancient Egyptians and Romans used them. The fashion of the plain gold wedding ring is Saxon.

WILL DIG FOR GOLD.

E. E. Rouse and Dr. Freemyer Will Dig Beneath the Waves of the St. Joseph River.

WILL EXPLORE AN ISLAND.

They Will Leave Tomorrow With a Kit of Miners' Tools and Lots of Faith.

Nine miles up the St. Joseph river there is an island which has held its secret well away from all adventurers. It is full of electricity or magnetism and they who would till its soil or dig beneath its surface have been mysteriously and effectually scared away. The spade is stuck into the earth but the man who holds it feels an electric shock and his hands refuse to hold the handle. He experiences the same sensation as the man who grasps a live electric wire.

In connection with the many legends connected with this island there is an Indian tradition that in the early days the pirates who then operated on the lakes hid their treasure of Spanish coin in the earth of this island. According to the Indian belief fabulous riches are buried in the electricity protected islands.

Tomorrow morning E. E. Rouse and Dr. Freemyer will start out on one of the river boats and stop at the island. They will go with spades and picks and with rubber gloves to protect their bodies from the fierce currents of electricity with which the ground is charged.

These gentlemen will sink shafts and explore the island and expect to be gone about two days.

YESTERDAY'S EXCURSIONS.

Eight Hundred People Went to Michigan City.

Eight-hundred persons boarded the steamer City of Louisville for Michigan City yesterday morning and enjoyed a delightful excursion given by Frazell's military band. The boat carried three bands, Frazell's and the Stevensville and Baroda organizations. The excursionists were given four hours in Michigan City which were spent in an inspection of the state prison and in the parks. Some of the excursionists were sadly drenched by a rain storm that came up just as the boat left the dock on its return trip. The band cleared \$50 out of the excursion.

The steamer City of Milwaukee carried upwards of 1,000 passengers on her trip from Chicago yesterday afternoon.

At least 2,000 strangers from Indiana spent Sunday in the twin cities. An excursion train of six coaches from Milford and Warsaw came in early in the morning accompanied by the Milford band. This was followed by the first section of the Anderson excursion consisting of eight coaches, the train coming here about 12 o'clock and about a half hour later the second section of the Anderson excursion of seven coaches came in. The last train had considerable difficulty in reaching here on account of trouble with the engine.

J. O. Walsh, excursion agent of the Vandalia and Graham & Morton company, brought in an excursion from South Bend Saturday night. The crowd was transferred from the train to the steamer City of Chicago and went to Chicago. There were eight well filled coaches.

HAPPY MEETING.

Was Held by the Y. M. C. A. Yesterday.

Dr. F. A. Votey conducted a very interesting and profitable men's meeting at the Young Men's Christian association rooms yesterday afternoon at 3 p. m.

Various phases of Y. M. C. A. work were discussed by the following persons, Dr. Votey in a very pleasing talk told of the influence that led him into the active work in Worcester, Mass., while a medical student there; also of his subsequent connection with the Central association in New York city.

Rev. Simons spoke of the railroad department of the work. He impressed the fact that a great work has been and is being done among the railroad men. As a result of the good work done by the association among the employed men the railroad companies had erected buildings well equipped and given to the Y. M. C. A.

Charles Tompkins spoke on the college work. The future leadership depends upon our college men of today. The Young Men's Christian association is an important factor in moulding that leadership.

The principle address was given by Charles Scott of Lowell, Mass. He spoke of the work in the east, having been closely connected with the work of the Lowell association as financial secretary. Some practical plans for raising finances were brought forth during his address.

Good music was a prominent feature of the hour's meeting.

All men are cordially invited to attend the meeting next Sunday at 3 p. m.

T. J. Sherman, Arden, 24th Colman

THE WEATHER.

Showers this afternoon and tonight. Cooler tonight. Rain in eastern Michigan tomorrow.

WAS HERE SUNDAY.

Vice President Deam Keeps Out of the Law's Clutches.

Vice President Deam of the Benton Harbor Electric road spent Sunday in this city. He came in after Saturday was done and got away before Monday began. Consequently the order of Judge Coolidge to open forthwith the safe of the company could not be served upon him.

It is whispered about the offices of the company that Deam's aversion to opening the safe may be accounted for in that some of the contents of the safe may have mysteriously disappeared about the time the combination was changed.

THE CAR FERRY LINE

It Will Begin Operation Tomorrow Morning According to Present Plans.

BIG FERRY TO ARRIVE TODAY

Twenty-one Cars Waiting to be Loaded for the First Trip Across the Lake.

The Big Four railway car ferry line from this city to Manitowoc will begin operation tomorrow according to the present plans of the Big Four.

One of the big ferries is expected in port this afternoon and the company has 21 car loads of freight ready for transfer by ferry. The ferry will be loaded tomorrow morning and will leave immediately across the lake.

THE OTHER SIDE.

What John Buckman Has to Say Concerning His Son-in-law.

Mr. John Buckman, father-in-law of Jake Hushaw, who was Friday placed under bonds to keep the peace, insists that he nor his family have made any attempt to estrange Hushaw and his wife. Mr. Buckman denies the existence of any conspiracy on his part or on the part of any member of his family to annoy and burden the life of his daughter because she is disposed to continue to live with Hushaw. He says he has treated Hushaw and his wife with the consideration due from a dutiful parent and that the claim by Hushaw that he was the victim of unkind and cruel treatment is false.

"I have never lost an opportunity to help Hushaw and since he became my son-in-law I have given him several hundred dollars, donated his house rent and encouraged him in every possible way," said Mr. Buckman to THE NEWS this morning. "The trouble started three years ago when I leased my farm to Delmer Laplant. Hushaw was angered over the transaction and shortly after left home and was absent nearly six months during which time I supported his wife and children. One of his babies died during his absence and I stood all the burial expenses. We have helped his wife a great deal, and our attitude has never been intended to cause her misery. We have always been solicitous for her welfare."

Mr. Buckman has been a resident of this county for 40 years and during that time he has never before been connected with any lawsuit. He is a member of the United Brethren church and one of the accusations he makes against Hushaw is that he will not permit his wife to attend church.

ABOUT THE COUNTY.

Sodus.

SODUS, July 26—Robert M. Hogue returned home from St. Paul Friday evening with Uncle Peter Sharrai who was taken ill while on his way home from the far northwest. Mr. Hogue went in answer to a telegram from the postal authorities of St. Paul.

Mrs. J. S. McKinsey had quite a serious runaway a few days ago. While driving home from Pipestone her horse became frightened, throwing her out and breaking a thumb and finger.

There will be an ice cream social at the McGowan & Shell hall on Friday evening, July 30, given under the auspices of the Epworth league of the M. E. church. Come everybody and enjoy the delicious ice cream and cake and have a pleasant and social time with the young people.

A little son of C. E. King fell down a bank Thursday and broke his left leg in the hip. Dr. McCartney was called and reduced the fracture.
